NEGROISM IN SOUTH CAROLINA.

A charming illustration of the practical effects of negro instruction is presented in the Williamsburg District, South Carolina. At the present term of the Court of General Sessions, which commenced a few days ago, out of thirty-one petit jurors summoned, twenty three were negroes and eight white men. Of the grand jury, twelve were negroes and seven white men. As only eighteen of the petit jurors answered to the summons, thirteen extra jurors, *all* of them negroes, were drawn from the bystanders. Out of these, two sets of jurymen were impanelled. The first jury was a mixup of ten negroes and two white men; *the grand had not a white on it.* Of this secondjury only one fellow could write his name and he, by order of the judge, was appointed foreman.

The Williamsburg district, being adjacent to that in which Charleston is situated, was at one time carried by plantations worked exclusively by negroes. The result of the war has been to turn over the impoverished planters to the tyranny of those who were formerly their slaves. As the negro vote in the district, compared with the white, is as two to one, juries impartially drawn, capacity and intelligence being left out of the question altogether, would consist of neahird white men,—But such are the Rascal manipulations and conjunctions in the Williamsburg district, that, out of the twenty four jurors ultimately selected at the present term of the court, only *two* white men were chosen.—With a Radical judge on the bench and a negro jury before whom cases are to be tried, there is no possible chance that a white man, unless he is Radical, will succeed in his suit, however manifest its justice may be. Moreover, a majority of the cases coming before this particular court, and, indeed, before all of the courts of South Carolina, are negro cases, chiefly offences arising out of the lawless habits the negroes have contracted as a condition of freedom, and does anybody suppose, that, as a general rule, conviction is possible with a judge elected by negroes and with negro jurors addicted to the very crimes for which they are to try their brother negroes?

Proscribed, insulted, oppressed, and negrodridden as the Southern people are, their patient endurance of the monstrous wrongs to which they are subjected, is indeed marvellous. They submit to the revolting despotism but they chafe fiercely at the thought that they must submit. If the Radicals really believe, as they pretend to believe, that their tyrannical measures will ultimately lead to a more perfect union or to any kind of union between the North and the South, they are stupid or mad.—They know not the relations of causes and effects. The negro jury sitting in the Williamsburg courthouse, the Radical Judge on the bench, the Federal soldiers scattered through the State, the negroes, scalawags, and carpet baggers in possession of the Federal and State offices, and the plantations gone to waste for lack of labor—all these things recall to the mind of the distracted Southerner the proud and prosperous condition in which he once was and of which he formerly enjoyed.—He may endure his subjection for a season, endure it in bitterness of spirit, but the remembrance of what he has suffered and is still suffering will not only remain but increase in intensity to the last, and the white generation growing up around him will perchance inherit a fearful legacy of hate and vengeance. By pursuing a course of conciliation, kindness, generosity, or even justice, after the war, the Radicals might have secured to the country every desired blessing. But, when they trampled upon the vanquished, when they sent forth their unscrupulous agents to prey upon them, when they stripped them of their political rights and turned over the control of their State to negroes and worse than negroes, they placed obstacles almost if not quite insurmountable in the way of reconciliation between the two sections.

PRECEPT AND PRACTICE.

The U. S. Constitution reads, sec. 5 and 6 of amended provisions:

"5 No person shall be held to answer for a capital or otherwise infamous crime, unless on a presentment or indictment of a Grand Jury, except in cases arising in the land or naval forces, or in the militia when in actual service in time of war or public danger, nor be deprived of life, liberty or property, without due process of law.

"6. In all criminal prosecutions the accused shall enjoy the right to a speedy and public trial, by an impartial jury of the State and district wherein the crime shall have been committed."

President Grant has taken an oath to support this Constitution, and let us see how he does it. One Weaver, a citizen of Texas, not of the army, was indicted for murder in Texas before a State Court, the person murdered being also a citizen of Texas, not of the army. On September 17th, 1868, a military commission took jurisdiction of the case, and entered upon the trial of Weaver, and the result was the conviction of Weaver by military commission, and sentence of death. The question now is: Had the military court jurisdiction of the case? We say it had not, notwithstanding the judgment of Gen. Grant and his Attorney General to the contrary.—We say not, because when the rebellion ended, the war ended, and because the Government declared the rebellion over long before the military trial and order for death. There being no war, no insurrection, no resistance to the authority of the Federal Government, there is no reason in, nor apology for, the trials of citizens by military courts. Nearly two years since, August, 1866, the President, by proclamation, declared the war over, and pledged the Executive authority to see the laws executed. Congress, as the legislative power, took no exception to this. The Court of Claims, after full argument on both sides, decided that the rebellion ended with the President's proclamation of August, 1868. The U. S. Supreme Court and also, in effect, decided that the rebellion ended even in Texas. Texas filed a bill in the Supreme Court asking certain relief, and the Court entertained the bill, thereby recognizing the rebellion ended in Texas, and, consequently, that the State has a legal status in court. If, then, the rebellion ended in August, 1866, it is a downright outrage to pretend that the war was still in existence in Texas in September, 1868. This case will go to the Supreme Court, we presume, if not prevented by the execution of sentence upon Weaver. If Gen. Grant is right, we are in a state of war with Texas; but if there is force in law, or in fact, then we are at peace in Texas, and all pretences to the contrary are either silly or wicked. Let the Constitution decide.—*N. Y. Express.*

THE Ætna is the LEADING LIFE INSURANCE COMPANY in North Carolina.
Largest amount of Losses to Widows and Orphans!
The Largest Revenue to the States. And has by far the largest number when compared with 58 Companies reported officially by the Commissioners of New York and Massachusetts it will be seen that the Ætna ranks as one of the first Companies of the Continent. But two of the fifty-eight Companies permitted to do business in New York and Massachusetts had so large an income for the year 1868; but two had so large a number of Policies in force, but one among all those incorporated under the laws of the State of New York had so small a per centage of Expense to Income during the year 1868.
Its expenses are lower than most Companies', and consequently its ability to make and pay liberal dividends to the insured is greater than that of most other Companies. It is one of the great Companies of the land in Income, in Assets, in Number of Policies, in Amount Insured, in Solidity and Strength, in Soundness, Cheapness, Promptness, and Success. Persons contemplating this mode of investment in the future as in the past would do well to examine the claims of all and take a policy accordingly.

THIS CELEBRATED WATERING PLACE, formerly called the North Carolina White Sulphur Springs, will be open for visitors on Tuesday, the first day of June next.
Being situated in the northwestern part of the State in a country remarkable for its beauty and healthfulness—these, together with the virtue of the waters, make it one of the most desirable watering places to be found.
The MINERAL WATERS of these Springs are the White and Blue Sulphur and Chalybeate or Iron, and they possess all the finest qualities of these waters, and are sovereign remedies for all diseases of the liver, bowels, stomach and kidneys, eruptions of the skin, scrofula, weakness, debility dyspepsia, rheumatism, &c.
The proprietor having spent a large amount in additional buildings and improvements generally, these Springs are now in a fine condition, rooms large and pleasant, and good cottages containing from two to six rooms each, well arranged for either large or small families.
Good TEN PIN ALLEYS, BILLIARD TABLES and other amusements.
FINE BATH HOUSES, for Pool, Plunge or Shower Bath, Sulphur Bath, Hot or Cold.
A GOOD BAND OF MUSIC
Will be at the Springs the entire season, and a good Physician permanently located for the benefit of invalids, who will have every attention.
Having secured the services of Mr. J N. CARTER, of Virginia, who has had much experience and stands high as a Hotel keeper, visitors may rest assured that my table will be supplied with the best the market can afford, and everything done that will add to their pleasure and comfort.
The cars on the Western North Carolina Rail Road will leave Salisbury for Hickory Station, the Springs' depot, every morning, (Sundays excepted,) in connection with the North Carolina Railroad, avoiding stoppage or delay at Salisbury, and arrive at Hickory Station in time for breakfast, where good hacks will be in readiness to take passengers over a beautiful, well-shaded road to the Springs—a distance of six miles.
As an inducement for families and parties to spend two months or more, I have concluded to put board down at the following low rates:

ROBERT SOUTTER,
OF GRANVILLE COUNTY,
realizing the importance of spreading the growth of Wheat in this County; and the farmers, knowing so well the absolute necessity of supplying themselves at an early period with "Seed Wheat" of the finest quality, ready to plant in the Fall, the undersigned takes this early method of inviting applications from farmers, for what they may require to plant next Fall, of the very "Selects Seed Wheat" which he expects to deliver at moderate prices, from the crop growing now at his "Oakland Farm" near Townsville, in this County.
This Wheat was planted last Fall, with Guano, of seed selected in Baltimore with great care by my predecessor, Mr. Chas. H. B. Taylor, who paid $3,25 for it there. It has had the advantage of a heavy top-dressing in Spring of Chicago bone Fertiliser, and is now very promising
Like the good Sorghum Seed which I have offered to the farmers of Granville, I hope the orders for my "Seed Wheat" may be equally attractive, to absorb all that I can expect to spare of it.

THE SENTINEL.

JOSIAH TURNER, Jr., EDITOR.

THURSDAY, JULY 1, 1869.

QUIT THINKING.

If the people of the South have not quit thinking, they have certainly quit acting for themselves. They leave it all to carpet baggers and a few base natives, whose business is to discourage honesty and to traduce virtue and truth. Those who have axes of their own to grind, are engaged in teaching the public to look upon every political adventurer of the North as a useful and a safe man, who is laboring, not for himself, but for the South. The carpet bagger was all powerful with the negro, and, hence, the Governor and all the Judges and political aspirants ranged themselves willingly under the carpet bag banner, and cheerfully submitted to their projects and plans. These carpet baggers are utterly unfit for the common business of life.—There is, to day, quite a number of them in the city. It may be they are here to advise the Governor and Treasurer as to the true financial policy of the State.

Littlefield and Abbott are here, after a short stay in Florida, giving the Legislature of that State the benefit of their knowledge and experience in Penitentiary and Railroad schemes in North Carolina. We hear that Abbott has said if "Holden wants his place in the United States Senate, he will not be in the way, for he would prefer a foreign mission to longer stay in the Senate." Dewese is to decline and let our "beloved's" son, Turpentine *Jo*, be the candidate.

Downing and Estes are here also, and we are looking every day for Prince Laffin and John Pool. Then the ring will be complete. Downing's presence always reminds us of the Penitentiary swindle.—This old carpet bagger labored night and day, in the House and out of the House, in Richmond and in Raleigh, to fasten on the State that eight thousand acre purchase for a Penitentiary. This old man bore his full part in this unmatched act of turpitude and fraud.

When the Committee were circumvented, fairly caught, and openly exposed, this old man was so wanting in shame as to stand up on the floor of the House and declare it was a good purchase and he would take it from the State at $100,000 dollars, when the tax list of his County shows that he only pays tax on one gold watch.

When carpet-bag influence in the State shall subside and the Constitution and laws have the power and force which faction and party now have, the people will inquire how it was, and why it was, that such characters as Downing, had and held, not only political, but close personal and social relations with the high officials of the State. They will reckon the high officials, not only as political and social companions, but companions and associates in guilt and fraud.

THE UNIVERSITY.

The policy of Holden has been to make the people quit thinking for themselves and allow himself and the carpet-baggers to think for them. And, judging from the quiet acquiescence of the people, he has met with some success.

The whole history of the University is some evidence of it; we mean the history since the University came under the control of Holden and his party. Chapel Hill is one of the healthiest spots on this green earth. Its pure water, its stately oaks, and its exemption from chills and fever, and all kind and manner of diseases, are well known in all the Gulf States. In every town and county in the South, you can find some special friend of the University; some graduate who wishes now to graduate his son at Chapel Hill; but how can he, so long as Pool, the Assessor of the District, is President, and Patrick, the banjo picker, is Professor of Mathematics, and Brewer, the wandering carpet-bagger, is Professor of Greek.

Dr. Hubbard, now a resident of Chapel Hill, and a member of the Philanthropic Society, and in whose taste and judgement that society so much confided, as to authorize him to purchase books for them, called on little Walter Guthrie, the Librarian, to borrow a book from the Library. The little boy said he should have the book; Professor Patrick had the key and he would go to him for it. He did go, and the little banjo picker said he did not like the book to go out. So Dr. Hubbard did without it.—

Now we think the banjo picker could not have done this of his own accord, for being a first cousin to Judge Settle, and, having traveled in Georgia, he must have known better. He must have acted under the order of Holden, the Governor, for it is manifestly like him. But no man can do an unclean act that cannot, in Holden, find a precedent for it. We conjecture that this refusal to lend an old Professor of the University a book from the library was of the Governor, because it is so much like the Governor on another memorable occasion. When Holden was Provisional Governor, he gave orders to the State Librarian not to allow the late Major Husted to have access to the library.

We say then, it must be by Holden's order that Dr. Hubbard was denied the book; it cannot be that the Lord has cursed the State with two men of such little, low and mean propensities. Until it be denied, we must remain of the opinion that the banjo picking Patrick acted under orders from "our most amiable and beloved."

"THE BUSINESS IS."—Jack Rice was an honest old man who, in the better days of the Republic, kept a public house on the great road leading from Raleigh to Tarboro'. The Bar and the Bench of that day knew him well, and always stopped with him. On one occasion, when acting as Grand Juror, Judge Battle holding the Court, the old man was so well pleased with the Judge's charge as to give it his prompt approval. He spoke aloud and said, "the business is, Judge, you are right."

For this too loud approval of his charge the Judge fined the Juror $25. Rice spoke again, "the business is, Judge, that's a heavy fine, can't you say fifteen?" The Judge declined to reduce the fine, and Rice left for home forgetting to pay it.

Next morning before day, he started for Court, and, while apologizing for not having paid it on yesterday, the Judge remitted the fine, as no contempt, but ill timed approbation, was intended. One of the old man's grand children gave us these facts, and we suppose Judge Battle has not forgotten the incident.

SUPREME COURT.—Court met pursuant to adjournment, all the Justices present.

The following cases were argued:

State on relation of Merrit *vs.* Z. Q. McQuaig, from Mecklenburg county. Attorney General for the State, Wilson for the Defendant.

William Saluns Executor *vs.* J. M. & A. J. Martin, from Gaston county. Bragg for the Plaintiff, Hoke for the Defendants.

John Y. McAden *vs.* James Bannister, from Lincoln county. Bragg for the Plaintiff, Hoke for the Defendant.

David Schenck *vs.* J. H. King, Sheriff, from Lincoln county. Bragg for the Plaintiff, Messrs. Phillips and Badger for the Defendant.

Correspondence of the Sentinel.

MORRISTOWN, TENN., June 26, 1869.

Mr. Editor:—Perhaps there is no part of the American continent to which the majority of your readers have paid less attention than to East Tennessee. In times past there was a lever for emigrating to Tennessee, but it was to what is here known as Middle and West Tennessee, the latter having been known in your region as "the Western dreadnict." A few of our more far sighted citizens have seen the importance of East Tennessee to our commercial system, and for years North Carolina has been pledged to the construction of a railroad to this section; but the vast advantages of this work have not been fully appreciated, and the enterprise has dragged its slow length along, without any definite hopes of its early completion. The popular idea was that the transmontane routes were designed merely for the benefit of the Western part of the State—an object in itself fully worthy of the fostering care of the commonwealth; but there are other and very urgent reasons for these roads, that ought to excite the deepest interest in our maritime districts.

East Tennessee is a valley or trough between the Cumberland Mountains and the Alleghany range, the former offering a barrier to Northwestern communications, the latter to Southwestern. It is a fertile region, and its productions of the soil, of the pasture, and of the mine are immensely valuable. Perhaps no part of the United States can produce a greater surplus, in proportion to size of territory, of important articles of trade; and as most of this produce must seek the Atlantic, and as the numerous chasms are cut through the Alleghany range by streams rising in North Carolina, nature has pointed to our coast as the shipping line of this region. But so far, this teeming country has been entered by iron arteries by only two gates, *to-wit*: on the entrance Northeast at Bristol, and at the Southwestern end by Chattanooga.—From the former to the latter, a distance of about 240 miles, the Valley of East Tennessee is bisected by a railroad, at every depot of which there will be a large trade; and from Bristol there are railroad connections with the ports of Virginia, or from Chattanooga with Charleston, Savannah, Mobile, &c.

Now Mr. Editor, standing here and looking for the nearest point to the Atlantic, our vision is directed towards Morehead City and Wilmington, and these places seem near compared with the points to which trade has to take its circuitous way. From this thriving town, the Tennesseeans have completed a Road to within a few miles of our line, on the French Broad river; and this place, as you know, is on the Great East Tennessee Road already referred to, only forty odd miles from Brownsville, the moral, political and commercial centre of East Tennessee.

You cannot realize, without being here, the eager and longing interest with which public attention regards the shortening of the gap between the present terminus of the Western N. C. Road & Paint Rock.—We watch, day by day, the progress of the efforts to cut a gate-way through the Blue Ridge—and we long to see a busy multitude preparing the way for the iron horse on this side of the mountain. Why could not the work have been going on for years from the State line to the Blue Ridge? We need not wait for the tunnel; as soon as steam can carry to the foot of the Ridge, the stream of travel will pour along the French Broad, and regard a few miles staging as a small matter compared with the inconveniences of the present circuitous routes. Produce even would take the expense of drayage and re-shipment; and when this direct road to the Atlantic is finished, our people will be astonished by a trade of which few have dreamed. Col. Swepson is now doing a work for which many in this region will thank him, and those who are co-operating with him; and I know of no movement in the industrial world of more interest to East Tennessee than the recent letting of contracts to grade the Western North Carolina Road from the Blue Ridge in this direction. May the good work be pushed with speed and unremitting energy to its completion!

NORTH CAROLINA.

IRMA GONE HOME.—Irma, the great opera bouffe artist, famous in this country as Perichole, has returned to Europe, taking with her, her husband, M. Colonne, and all her witchery of smiles and winks and kicks. It may not be generally known that this popular prima donna is very shortsighted, so much so that she cannot see the audience at all when before the foot-lights. When off the stage she always wears eye-glasses.

For the Sentinel.

JAMES W. COOKE.

To the Editor of the Sentinel:—Your announcement, in the *Sentinel* of the 24th inst., of the death of Commodore James W. Cooke, at Norfolk, on the 21st inst., was read with mournful interest by many persons in Beaufort, who remember Cooke in his early days. He was a native of this place, and was the son of Thomas Cooke, merchant, who perished at sea, near Beaufort, in the great storm of September 4th, 1815. The latter was returning by sea from New York, with merchandise, and reached the "offing" of Beaufort Inlet while the storm was coming on. The high waves were then breaking on the seashore and over the Inlet with a wild and frightful roar, which plainly betokened a coming tempest. The vessel containing Mr. Cooke and his merchandise approached the Inlet so near as to be seen and recognized by the inhabitants of Beaufort. But the wall of breakers stretching across the bar forbade her entrance, and she turned away and headed off. Night soon came, the storm increased, and all on board the vessel were lost. That night was a night of horrors on the Southern coast. God alone could see the multitude who perished then, and hear their "loud lament along the sweeping sea."

James W. Cooke (with an elder sister) was left an orphan; and, though in his infancy, he was destined soon to another bereavement. We have just visited the spot, in the Beaufort cemetery, where his mother sleeps, and find that she died on the 14th of October, 1816, in the 22nd year of her age. The bereaved boy lived in Beaufort until he was about fifteen years of age, when he entered, as Midshipman, in the U. S. Navy. That service was well suited to his genius. A roving life on the sea was what his young heart desired. He was animated by an active, adventurous, and a most fearless spirit. A braver heart than he possessed never beat in any bosom.—Scenes of excitement and danger which might have appalled less daring minds, exactly suited his fancy. Like the petrel of the ocean, he loved the storm. He soon rose to the rank of Lieutenant in the Navy, and served with honor in that capacity until the breaking out of the late unfortunate war, when foreseeing the struggle which was approaching, and believing his native State had the right to claim the allegiance of her children, he resigned his Commission in the U. S. Navy, and tendered his services to North Carolina.

Some years before the war, Lieutenant Cooke was married to a lady in Virginia who, we learn is now living, and has one son.

Many years have passed since we last saw this brave and gallant officer. But your announcement of his death awakened many recollections of his early life, and prompted this brief tribute to his memory. *Requiescat in pace.*

SEA SIDE.

General Canby, in command in Virginia, replied to a Conservative delegation which called upon him the other day for information that members elected to the Legislature would be required to take the iron-clad oath. This rules out nearly every respectable man in the State, and turns it over once more into the hands of unprincipled scalawags and carpet baggers. Few, if any, *white* men can be found to qualify. When is this diabolical patchwork to cease? Had the Radical party been true to their pledges, Virginia would, to day, be in the Union; but the great mass of her people are worried and tortured by Radical devilry, and have well nigh abandoned all hope of relief. And we of the North are taxed to keep up this atrocious work, while trade languishes, our burdens are becoming more and more oppressive—principle, honor, the public welfare—all is sacrificed to elevate the negro to a position for which he is totally unqualified, and from which he must fall the moment the Radical party is driven from power, as it assuredly shall be. Let the true men of Virginia bide their time—that time when the Canbys, and the Wells, and all the vile tools of Radical despotism shall have sunk into deserved oblivion.—*Metropolitan Record.*

NORTH CAROLINA CANNOT GO THE NEGRO VOLUNTARILY.—We learn from the North Carolina papers that Dr. Grissom, the head of the Lunatic Asylum, invited the legislative committee to dine. The committee appeared to eat his good things, prominent among them a lusty African, named Howe. *How* he was to get the benefit of that dinner on good Democratic principles, stuck along side of his white companions, seemed a problem Grissom could not solve consistently with sound Radical notions. So he politely told Howe how only he could *earn* his claret, munch his mutton, and gorge his oysters on the half shell. He must take another table. Howe retired in supreme disgust.

Dr. Grissom has been smartly rated for his conduct, and the press of both sides have gently skinned him—the Radical for not going the whole black doctrine—the Democratic, for being squeamish over little matters.—*Atlanta, (Ga.) Constitution.*

A DEMOCRATIC IDEA OF THE OHIO REPUBLICAN PLATFORM.—The Cleveland *Plain dealer* thus condenses the platform of the Republican State Convention of Ohio, which met on Wednesday last:

Resolved, That we endorse Grant now.

Resolved, That we feel happy that Grant has not brains enough to have any policy, and that he is willing to be run by Congress, without protest.

Resolved, That we favor the fifteenth amendment, securing to the negroes of Ohio the right to hold office, sit on juries, &c.

Resolved, That the Democratic Legislature of Ohio is rotten and corrupt, because it was not republican, and had not many pure men of the Ashley-Eggleston stripe in it.

Resolved, That we put on paper our desire to be considered the particular friends of the soldier, but the offices belong to the civilians.

A GRAND RUSH FOR GOLD.—Letters from Elko Nevada, to the California papers report a grand rush to some gold mines, both quartz and placer, which have been discovered eighty-three miles distant form Carlin. They are situated in the northern part of Elko county, on the north slope of the divide between the waters of the Owyhee and north folk of the Humboldt river. The specimens brought into Elko are said to be the richest ever found in the State. White Pine declares that some of the specimens are just like the ores of White Pine, and the color of gold panned out in the creeks of the new El Dorado have set old California placer-miners on the go. Every man in Elko who is able to get a horse leaves for the new diggings, and it is thought the rush will equal that to White Pine.

An American student at the Freiberg Mining Academy created, on the 18th of May, a great sensation in Saxony by starting on a velocipede journey from Dresden to Paris. The Peasants on the route had never seen a velocipede before, and some of the women and children were very much frightened at his appearance. In one small city of Saxony he was arrested for traveling without license, as a mountebank and jugg'er.

STATE NEWS.

NEWSPAPER CHANGE.—S. D. Pool, Esq., announces his withdrawal from his connection with the publication of the *Journal of Commerce*; we presume he will still continue his labors in the editorial department.

ANOTHER STEAM ENGINE TALKED OF.—The members of the Atlantic Company have desired, for a long period, to have a Steam Fire Engine, and we understand that a movement will soon be inaugurated with a view to the procurement of one for it.—*Jour. Com.*

Twenty-five hundred shares have been subscribed in the Wilmington Building Association.

TO BE RAISED.—We learn that the Schr. *Nellie Torbox*, sunk on Monday to extinguish the fine on fire in her hold, will be raised during to-day.

COMING.—Peaches are coming. The Editor of the Wilmington *Star* had some nice ones sent him, on Wednesday, from the orchard of Mr. C. A. Scott, of Kingsville, S. C.

Miss Mary L. Day, a blind lady is selling a book in Wilmington, entitled "Incidents in the Life of a Blind Girl," said to be incidents in her own life, and written by herself.

The Wilmington *Journal* learns upon good authority that the corn crop of New Hanover county promises to be fully two-fifths more this year than last.

The *Roanoke News* furnishes us the following items:

There was a pleasant pic-nic on Saturday last, at Ringwood, in Halifax county, given on the occasion of the closing exercises of Mr. J. Allen's school at that place.

Mr. L. B. Manning is carrying on an experimental farm near Ringwood, which at present promises to be successful and profitable.

THE DUTY OF THE HOUR.

The very general lull in politics at present should not be a spell of inactivity on the part of the Democrats. This is just the time for energetic work. Again and again has it been urged by us that the really effective work of a political party is done between, rather than during, the great campaigns. There is, we admit, something stirring in the excitement of a close political contest, with the mass meetings, parades, banners, music, and shouts of the contestants. But all these are only effervescent.—Boys can march and shout and make a crowd, but they cannot vote. To be plain, the Democratic party needs voters, and the one duty of the hour is to obtain them.—The means for accomplishing this result, though so very obvious, are too often neglected. They are comprised in one word—*organization*. Just this is what is needed. How to effect it can be explained in a few words:

I. The Democrats in every town in the country should organize themselves at once. As the first step let some one initiate a number of brother Democrats to meet at his house on a specified evening, and by a very simple process, a President, Secretary, and Executive Committee can be chosen. The next move should be to make a thorough canvass the town, and by personal appeal induce every voter who may be opposed to the Radical policy to join the association; by by every voter, we mean merely a few men of wealth or of reputation, but the tradesmen, the mechanics, the farmers, and the laborers. Each one should be made to feel that he is interested in the matter, that his co-operation is needed, and that it is his duty to put his shoulder to the wheel.

II. The organization thus completed and a brief constitution (the briefer the better) framed, stating its objects and aims, a room should be secured, in which meetings should be held as often as once in two or three weeks during the interval of political campaigns. A leading Democratic paper and the local Democratic organ should be kept on file in the room, accessible to all who may wish to read them. The club, too, should keep these papers informed of its growth and of any and all political movements in the town in which it is located.

III. Such a club should keep itself in communication with the Democratic committees of its county and State, in order that, at the proper time, it may be supplied with documents for use during a campaign, as well as to afford these committees the information that they must have to make an efficient canvass.

IV. It is not necessary that at every meeting of the club speeches should be made. They are tributary, but not essential, to its success. Sure it is that, if the club is infused with the vitality which it cannot fail to possess if its members are wide-awake to their duty, there will be no lack of speeches, and good speeches, too.—It is very often the case that a plain appeal from a plain man to his fellow-townsmen will have greater effect than an elaborate oration from an eloquent speaker who is a stranger.

The plan thus sketched in its outlines is very simple. A half dozen men of clear heads and average intellects can carry it out. It is, too, the only plan by which the Democratic party can attain success in the States which hold elections next fall and in the elections for Representatives in Congress in 1870. Now is the time to begin to carry it out, while our opponents are demoralized by the blunders of the administration and the failures of the policy which they have inflicted upon the country.—*N. Y. World.*

How very respectable the administration of Mr. Andrew Johnson appears in the light shed back upon it by the administration of Mr. Ulysses S. Grant has now become a trite observation. But there is something refreshing in knowing that Mr. Johnson himself has a just notion of his successor, and something extremely refreshing in reading the language in which Mr. Johnson, in a recent conversation, uttered his sentiments:

I know Grant thoroughly. I had ample opportunity to study him when I was President, and I am convinced he is the greatest farce that was ever thrust upon a people. Why, the little fellow—excuse me for using the expression, but I can't help pitying him—the little fellow has nothing in him. He hasn't a single idea. He has no policy, no conception of what the country requires. He don't understand the philosophy of a single great question, and is completely lost in trying to understand his situation. He is mendacious, cunning, and treacherous.—He lied to me flagrantly, and I convicted him by my whole Cabinet; but that even would have been tolerable were it the only instance, but it was not. He lied on many other occasions. I tell you, sir, Grant is nothing more than a bundle of petty spites, jealousies, and resentments. And yet they say Grant is a second Washington. Just look at the man sitting at a Cabinet council. He has no idea, no policy, no standard, no creed, no faith. How can he guide the people? How can he impress any great improvements or moral ideas upon the nation? He has no object to look forward to, no leading aim to draw the people towards any particular end.—He sits there with his Cabinet. One member has bought him a house in Philadelphia, another has given him $65,000, another has given him a carriage, and so on. It is degrading to the office of President of the United States to have such a man there.

TO ADVERTISERS.—Please hand in your favors by noon, if you wish them to appear in the day's issue.

NEW ADVERTISEMENTS.—The Raleigh National Bank declares a dividend.

New Secretary elected in the N. C. R. & P. Estate Agency—big drawing, August 28th—papers notice.

☞ We would call special attention to the advertisement of the "Sweet Chalybeate Springs." Dr. Ed. Warren is so well and favorably known in this State that his presence there during the season, as resident physician, will prove a strong inducement to many to seek these springs as a summer resort.

PERSONAL.—Col. Wm. Johnston, President of the Charlotte and South Carolina Railroad, one of the most successful railroaders of the country, arrived in the city this morning. We are informed that passengers may take their seats in the coach at Charlotte, and retain them to Augusta, Ga., —a great convenience to travellers.

STUMPING THE CITY.—We notice that the street hands were engaged this morning in taking up some old stumps on the edge of the pavement, near the Hinton residence on Hillsborough street. Those old stumps have been standing there for many years, and we never heard of man, woman or child, drunk or sober, stumbling over one of them yet, as they stand on the edge of the gutter, between more recently planted shade trees, and there is a clear ten feet space of pavement on that part of the street. But, we have so much money, and there are so many who are claiming "some thing" that has been promised them, that even grubbing up old stumps and mowing dog-fennel in the suburbs, are made available to appease the clamor.

ANOTHER COTTON BLOSSOM.—We have received a cotton blossom—a *red* one—which was taken from the farm of Col. Heath, one of the largest and most successful planters of Johnston County. This bloom was gathered yesterday, and, being red, must have been at least, two days old when gathered, which will give it precedence over the one we noticed, yesterday, from the farm of Dr. Miller, but the Doctor's was the first in *Wake*.

TRINITY COLLEGE.—We have received the catalogue of this popular and excellent institution, for 1868 69, from which it appears the total number of students during the collegiate year, was 142.

The whole course of instruction of this College, as appears from the catalogue, is best traced in eleven schools—Latin, Greek, Mathematics, English Literature, Natural Science, Mental and Moral Philosophy, Modern Languages, Theology, Engineering and Architecture, Analytical Chemistry, and Law.

Theology and Law may be studied exclusively; in all other departments the student may make his own selection, being required however, to take at least three schools. As will be seen from a notice in another column, the Fall term opens on the 4th. of August.

THE UNION CHURCH.—What has become of it? We fear that, since brother Pepper has left, and Rev. "Collards" has engaged in secular pursuits, and been looking for brother Butt, that there is no one found worthy to take the cure of their souls. It is true it would be an attenuated economy bordering on pusimony, to undertake the salvation of the souls of some of those who went into the Union Church movement, yet if brother Pepper, or brother Miller, or "Collards," himself, are disposed to be saving, all the better. We advise some one, or all, of them to look out for their "lambs" as soon as possible, for the sheep are setting them very bad examples.

What induced this movement originally, we are unable to guess. They might have felt themselves too holy and of too elevated a piety to affiliate with the other churches here; or, on the other hand, they might have felt too humble and unworthy to aspire to such affiliation—one thing they *would not do*, that is, affiliate with *Christian niggers*; therefore they set up a new church. But we fear it has fallen through. They have, there is ground to apprehend, returned to the "beggarly elements of the world."

ANOTHER FUSS IN THE FAMILY!

THE UMBRELLA FURLED!

THE SHELALA UNSHEATHED!

CEBE ON THE RAMPAGE!

THE GOVERNOR DISGRUNTLED!!!

The Question of Prerogative DOG-metically put and CAT-egorically Answered!

A DOG AND CAT AFFAIR ANYHOW!

We learn, upon what we deem good authority, that the breach between "our beloved" and his man Cebe, has widened, until the chasm has become impassable. The Governor, it is reported, has sued out an injunction against Cebe to prevent him from intermeddling in his Railroad-proxy appointments, and the Court will have to decide who's who, and which is which.

> Then wo, alas! to Ceborn L.,
> His griefs and sorrows who can tell!
> Search where you will, you cannot find
> A nurse so doting, fond and kind,
> So vigilant through every scene,
> As Billy has to Ceborn been.

We advise them to make it up. Let them reflect what a terrible effect it will have on the U. L's. and H. O. A's., and on the coming elections. Cebe ought to defer to the superior judgment and good sense of his Excellency, who carries the brains of the party. What right has *he* to think for hims lf? We hope the friends of the parties will take the matter in hand, and, if need be, call the League together, and take counsel of Friday and Handy. Let something be done that the scandal of such a showing up as they *could* make up of each other be avoided.

> "Let dogs delight to bark and bite,
> For God has made theeff so;
> Let bears and lions growl and fight,
> For 'tis their nature too;
>
> But, children, you should never let
> Such angry passions rise,
> Your dirty hands were never made
> To tear each others' eyes.
>
> Let love through all your actions run,
> And don't kick up a muss
> The Democrats would shout with joy,
> To see you in a fuss.
>
> Don't let your loving souls fall out
> On any idle whim;
> Now, Cebe, go kiss the Governor,
> And, Gov'nor, you kiss him.

We give the parties our best advice; if they will not heed it, it is not our fault.

MEETING.

Last night, after desperate and prolonged efforts, the "truly loil" succeeded in assembling at the Court House, a dozen or so of niggers and some five or six whites. Arrangements were made to celebrate the "glorious fourth" in a style appropriate to the present order of things.

"Our son," Joe William was selected as the orator. We sincerely hope that the occasion will not call up any tender memories connected with Roanoke Island, and that *he* may not become *too full* to give utterance to his patriotic phelinks. Our present inefficient but entirely reconstructed Postmaster, C. J. Rogers, presided, we believe, over the profound and deliberations of this very respectable and distinguished body.

The "Hon." John Jones, an individual of ginger cake hue, who, besides being a prominent politician, runs a barber shop and bar room, "Hon." Ned Lane who also rejoices in being one of Africa's favored sons and a ward of the nation, "Hon." Alfred Haywood, of whom neither history or report give, us any information, and *Jimmy Buck*, (WHITE,) were elected amidst tremendous and deafening plaudits of the countless multitude assembled, assistant marshals, with powers extraordinary to appoint others.

Our Chief of Police, Martin, who, like scores of others, has succeeded in picking up the title of Major, had the overwhelming honor of being chosen Chief Marshal of the rest of the honorables.

Jos. P. Andrews a member of the late "Konstitutional," a harmless sort of lunatic, who occupies his lucid intervals in doing odd jobs in the daubing line, was appointed to hand down the proceedings of the meeting to the "Archives of Grabity."

One John J. Sawyer is announced as the reader of the Mecklenburg Declaration—Who Sawyer is, and what his antecedents are, we know not, but suppose he is all that our "fancy paints him." We beg to indulge the hope that our citizens generally will accept the invitation extended by the above named *gentlemen*, to participate in the celebration of the national holiday of "the best Government the world ever saw."

P. S. Little Charlie Horner, Governor *ad interim*, we forgot to state is also one of the Assistant Marshals.

JOHNNY MCDONALD, of Chatham, Joe Abbatt, of New Hampshire, but now United States Senator from this State and a host of other scallawags and carpet-beggers of equal importance, but of whom we have neither time nor space to speak are in the city. Some devil's work is going on, you bet!

OLD MAJOR DOWNING has at last aroused from his heavy slumbers. We saw, yesterday afternoon, the somnambulistic gentleman perambulating our streets, to all appearance wide awake. We supposed the expose of the Penitentiary Commitee's combinations, last session of the Legislature, sits heavy on the old gentleman's stomach, and prevents, to a great extent, that former propensity to imitate Joe, the fat boy.

KOEKOO, the *great Liver Invigorator, Blood Purifier, and Renovator*, prepared by Dr. J. J. Lawrence, the celebrated Physician and Chemist, is a SAFE, PLEASANT, and RELIABLE remedy, for the PREVENTION and CURE of the diseases caused by a TORPID LIVER, IMPURE BLOOD, DISORDERS of the KIDNEYS, or DEBILITY of the NERVOUS SYSTEM.

It REGULATES the secretions, ERADICATES all HUMORS or TAINTS, restores lost or wasted nervous power, and at the same time *builds up and imparts tone and vigor to the whole system.*

ANOTHER OYSTER WAR.—A serious quarrel has arisen between the oystermen of Connecticut and Long Island, relative to the right to plant oysters in Huntington bay. The Long Islanders contend that Connecticut does not own a foot of land in Huntington, or pay a cent of tax, yet by threats and force she has monopolized the oyster beds. The authorities have not yet taken any action in the matter.

The *Imparcial*, one of the leading Spanish journals, makes a strange statement. It says that agents of the government have been sent about to the newspaper offices to tamper with the press, with a view to obtaining its advocacy for the sale of Cuba to the United States. The Spanish cause in Cuba is by no means hopeless, but the cost of carrying on the present desultory war at such a distance is too burdensome to be longer endured. The Spanish government thinks they may as well have a good round sum for their fine possession, and they have according to the indignant *Imparcial*, invited the press to get up an agitation on the subject.

MARYLAND.

BALTIMORE, July 1.—Judge Giles, of the Federal Court, has decided that the steamer Cuba is liable to confiscation for smuggling cigars from Havana. The defendants have appealed.

FROM WASHINGTON.

WASHINGTON, July 1.—The three Cuban crafts, captured in New York harbor, contained only 150 men. The main expedition is undoubtedly far out at sea. The police had advices of the departure of a schooner with a lot of horses aboard. The horses will probably perish for want of the hay which was aboard of the captured vessel, the "Cathrine Whiting."

Thornton the British Minister, and Roberts, the Spanish Minister, have been in consultation with Banks. After consulting Cubans, they visited the President and Rawlins.

Banks has said that the Cubans will obtain their independence, and that the government will declare them belligerents before many weeks.

Bishop Wilmer visited the President to-day.

Yesterday's *Express* has the following regarding the money panic: "It has leaked out to-day that above five millions of greenbacks have been locked up by parties manipulating the money market to excite prices generally. The present distress in the money market could never have been reached at this season but for the remarkable assistance from the Treasury Department. Wall Street has locked up five millions and Boutwell has locked up nearly thirty millions."

FOREIGN.

DUBLIN, June 30.—This morning at 9 o'clock, Greenwich time, the Great Eastern telegraphed as follows: "We are going to cut the cable and buoy. No signals have been received since. The first sign of something being wrong in the electrical condition of the cable occurred this morning, but nothing of a definite character. Electricians see no reason for alarm; delay is the only inconvenience.

A negro woman, living on the premises of Major John Ferner, near Halifax, was killed by lightning, last Friday.

An excursion train, carrying a hundred excursionists, went out from Weldon to Petersburg, last Sunday morning, returning in the afternoon.

In Virginia just now United States officers have an easy path to choose. They are sent there to niggerize the State. If they will help they are just the men for the place. If they have any prejudices in favor of white supremacy they must "hold themselves in readiness to move at a moment's notice."—*N. Y. Herald.*

The Postmaster of Mina, N. Y., recently addressed the following communication to Washington:

> First Assistant Postmaster-General:
>
> DEAR SIR:—I asked you for my resignation some time ago, and recommended Alexander D. Holdridge to be Postmaster of this office it is the people's wish, and he being a Republican and my being a Democrat, I thought it would be immediately attended to. My business is such that I must go to Iowa, to be gone two or three months; my wife died last July; my daughter and deputy must be absent also. I am an old man, born 1800. My grandfather was a cousin to Ethan Allen; and now, "*By the Great Jehovah and the Continental Congress*" *I demand my resignation.*

HIGHEST INSURANCE AUTHORITIES

SAY OF THE

BROOKLYN LIFE!

"A Company that makes such endorsements on its policies, gives the strongest pledge that it will fulfil its trust faithfully, and keep its reserves sufficient."—HON. ELIZUR WRIGHT.

"The BROOKLYN LIFE has placed itself in the vanguard of insurance reform, and is the first Company that has done full and complete justice to the insured."—INSURANCE TIMES, Jan. 1869.

THE BROOKLYN LIFE, ALONE OF ALL OTHER LIFE INSURANCE COMPANIES, GUARANTEES A DEFINITE SURRENDER-VALUE IN CASH, AND EVERY POLICY ISSUED BY THAT COMPANY, BEARS A CERTIFICATE STATING WHAT THIS EXACT WORTH WILL BE IN DOLLARS AND CENTS, AT ANY TIME, AFTER THE PAYMENT OF TWO OR MORE PREMIUMS.

"The BROOKLYN LIFE has made no half-way work of the adoption of this inestimable feature. It is noteworthy, in this connection, as a merited tribute to the excellent Company (Brooklyn Life,) which has so gallantly raised the standard of reform in Life Insurance, that we find in the whole list of existing Companies, few competitors which deserve so much credit in respect of economy of management, or care, skill and judgment in the selection of risks."—INS. SPEC. Jan. 1869.

The BROOKLYN LIFE has paid, and now pays to its policy-holders, **LARGER DIVIDENDS** than ever before paid by a Life Insurance Company!

Dividends are paid IN CASH, or applied to the permanent increase of the policy, or left with the Company to accumulate at interest, in either way, at the option of the policy-holder.

The Daily Sentinel.

[From Scott's Monthly.]

And are these the days of the darkening haze—
The mists whence no star may quiver
And is this the moan of the monotone
Of the dark and tideless river?
We look not back on our weary track
For t. e voice of a vanished chorus;
The lights are gone that have led us on,
But the path lies straight before us.

Let the hair grow white!—let the failing sight
Await but a clouded morrow;
We keep the faith that we plighted to death,
And the troth we plighted sorrow!
There are flowers that bloom by the quiet tomb
Of the gentle, the true and tender:
And they are all that our tears recall,
Or the sepulchre can surrender!

Are there forms as fair as we buried there?
Are there lips with such fragrance laden?
Are the sounds as sweet as the bounding feet
That are white mid the lilies of Aidenn?
It may be so, but they bring no glow
To hearts that are haunted ever
By the shadow that lies on the shrouded eyes,
And the lips that are sealed forever.

Bid death remove from the brows we love
The damps of his dark'ning river;
Let heaven restore on its shining shore
The lost w o n we love forever;
Their light alone on our pathway thrown
Their star to our darkness given,
Shall lend its fires to the trembling wires
That are linked to our hearts and heaven.

The Age of Progress.

We publish to-day, the first scheme in the sale of Real and Personal Estate—a Company chartered by the last Legislature, with a capital of one hundred and thirty thousand dollars, and with power to increase that amount to five hundred thousand dollars. An examination of the charter satisfies us that the Company is pursuing a legitimate business; they are empowered to "dispose of Real and Personal Estate *in any mode or form* they may deem best," and "all laws, or clauses of laws, coming in conflict with said charter are hereby repealed." This is plain and unmistakable English, and we have no doubt the transactions of the Company will prove beneficial to the property holders of North Carolina. For example: Mr. A. owns a piece of real estate which he wishes to dispose of. He throws it upon the market, and fails to get a bid that would warrant him in making a deed. He then places it in the hands of the North Carolina Real and Personal Estate Agency, at a fair valuation, and the property is sold by chance—the owner gets his price—the Company a fair and reasonable compensation for selling—and some poor man, for *two dollars* comes in possession of a homestead, which, under any other circumstances, he would not have owned.

In fact, we do not view the Company as a Lottery—it is what it purports to be, a simple Agency for the sale of property, for its true value, which, otherwise would be sacrificed

We refer our readers to the advertisement—the splendid real estate offered, and the other rich prizes, amounting in all to Three Thousand and One—and the reader will perceive, by the simple rule of division, that there is one prize to every twenty-four tickets.

The General Agent of the Company has given us a call, and assures us, that the success of the Company is no longer a problem. In thirty-five counties through which he has just traveled, he represents the people as being enthusiastic in favor of it—both as to investing, and the placing of property in the hands of the Company for sale. He represents trust already, before the first grand drawing has taken place, applications to sell, amounting to half a million dollars, are on file in the Secretary's office.

We learn from the Raleigh papers, that the explanatory drawing which took place in the city of Raleigh, on Saturday last, passed off to the decided satisfaction of a large audience assembled in Tucker Hall to witness it.—*Wil. Post.*

One three cent stamp must accompany every order. All tickets will have the seal of the Company and signature of the Secretary.

☞ We refer to any Merchant, Banker or other gentleman of standing in the city of Raleigh.

For further description and particulars, address

JOHN C. HESTER,
june2 4t Secretary.

LIFE INSURANCE.

NATIONAL

LIFE INSURANCE COMPANY,
OF THE
UNITED STATES OF AMERICA,
WASHINGTON, D. C.

Chartered by Special Act of Congress, Approved July 25th, 1868.

CASH CAPITAL,
$1,000,000,
PAID IN FULL.

It is no longer a question with any man, who tenderly loves his wife and children, who considers how helpless would be their condition in case of his *death*, as to the duty of taking out a LIFE POLICY, but as to which Company he shall pay his money.

If he reflects a moment he will conclude to patronize the Company which shows the greatest degree of vitality, which extends its business over the largest area, which is a Home Company in every locality; which furnishes insurance at the least cost; which issues no policies that are forfeitable should he be unable next year, or any subsequent year to pay his renewal; and which is *undoubtedly* able to meet ALL ITS PROMISES.

With these feelings and views, he looks over the newspapers and, by the time he gets through reading the advertisements of Mutual or Mixed Companies, he finds his mind so fuddled that he is at a loss where to go or what to do. He can not comprehend one-half that is written, and concludes that none but Actuaries, who are familiar with the principles upon which Life Insurance is based can comprehend or explain anything about dividends and his liability for notes given in part payment of premiums. In his dilemma, he looks into the plan adopted by the

NATIONAL
LIFE INSURANCE COMPANY,
U. S. A.,

and finds just what he wants:

An ALL-CASH PLAN, reduced to the LOWEST MINIMUM Rate, like any commodity in Market, so much Insurance for so much Money. No notes to give; no interest to pay; no anxiety about Assessments; no apprehension of his Policy being forfeited next year if he does not pay his annual Renewal; and the RATES so much LOWER than other Companies, that he realizes a larger Dividend, IN ADVANCE, than other Companies can pay him in the future.

He finds that, instead of this UNCERTAIN PROMISE, and present high rate, that the

NATIONAL

presents a certain and definite sum for a much lower rate, and puts up its paid up Capital of

$1,000,000

as a guarantee fund, that its contracts will be fulfilled, and, like thousands of others, cheerfully calls on their Agent to make his application for a Policy. Hence the unprecedented and most wonderful success of the NATIONAL as contrasted with the older and Mutual Companies.

The Company issued its first policy on the 1st of August, 1868, and up to March 1st, 1869, it had issued 3,582 policies.

Amount insured,	$10,005,550.00
Total Premiums,	350,117.03

The whole number issued by the Connecticut Mutual in the first year of its existence was 892

By the Mutual Benefit of New Jersey,	693
" New England Mutual,	243
" Phœnix Mutual,	335
" Massachusetts Mutual,	313
" Equitable of New York,	277

The Mutual Life, of New York, in the first year of its existence, only issued 470 policies.

In its 10th year,	1,260 "
And in its 20th year,	2,842 "

this latter being 690 *less* than was issued by the NATIONAL in its first seven months.
